

ADDRESSING HEALTH DISPARITIES AMONG OKLAHOMA MINORITY AND RURAL COMMUNITIES THROUGH CLINICAL RESEARCH EDUCATION AND CAREER DEVELOPMENT

Clinical Research Education and Career Development Program

CO-PIs: Julie Stoner, PhD and Courtney Houchen, MD

Program Goal

Facilitate the education of participants from diverse backgrounds underrepresented in biomedical research to pursue clinical research or population health research on diseases that disproportionately impact minority and rural populations in Oklahoma.

Application Information

Application links can be found at:

**Participants from
Diverse Backgrounds**

Clinical Research

**Rural Health and
Health Disparities
Research**

Application Deadlines:

Phase I: May 1, 2018

Phase II: January 31, 2018

Training Phases

Phase I

- Didactic program courses for skill development in clinical and population health research
- Complete a thesis research project focused on health issues in underserved populations
- Earn a Master of Science degree in Clinical and Translational Science
- 50% protected time and salary + fringe or up to two years
- Application deadline: May 1, 2018, 11:59 PM, for Fall program matriculation

Phase II

- Mentored research experience
- 75% protected time and salary + fringe funding for up to three years
- Application deadline: January 31, 2018, 11:59 PM, for March 1 start date

Eligible Program Participants

- Post-doctoral fellows and junior faculty, within seven years of their first faculty appointment, who aim to become productive, independent clinical or population health research investigators in the areas of minority health, rural health and health disparities research
- Member of diverse background underrepresented in biomedical research
 - Racial and ethnic minority groups
 - Individuals with disabilities
- Must be U.S. citizens or permanent residents
- Phase II applicants must have completed Phase I or equivalent training and must meet the NIH definition of Early Stage Investigator
