SUPER Computing TUESDAY
Join us for the “Launch”!

This is a new seminar series designed to enhance use of tri-campus computing & technology resources for research, teaching & clinical service purposes.

Please join us for:

“An Overview of SuperComputing at OU”

Presentation by:

Jim Ferguson,
Research Computing Facilitator
&
Kali McLennan,
Systems Analyst

Tuesday, March 3, 2020

Noon-12:50pm
Room 1047
Allied Health Building
OUHSC – OKC
&
OU-Tulsa Room 2D15

Please bring your lunch for this “Launch”!

Faculty, Staff & Students are Welcome!

Remember to VOTE on Super Tuesday!
Potential Future Topics for 2020:
- Securely Sharing Data with Collaborators
- Artificial Intelligence & Machine Learning
- Robotics
- Building Apps for Data Collection
- Geo Information Systems
- Data mining
- Protecting Research Data
- Software Engineering & Programming
- High-performance Computing
- Wearable Technology & Health Monitoring
- Cloud Storage
- Institutional Data Categories & Related Policies
- Medical & Biomedical Informatics
- E-Health data privacy
- 3D Object Modeling
- Virtual, Augmented & Printed 3D Models
- And more…

Watch your email for announcements about:

- Another seminar in April,
- “Top Topics & Best Day/Time” Survey &
- Summer & Fall 2020 seminar schedules!

Topic focus will likely change each calendar year to create a rotation cycle across our Research, Education & Clinical Service missions!
